

MARKET FOR FARM TOOLS

Evacuees who left used farm equipment or automobiles in storage last year can find a ready market for them at fair prices, according to a statement received today by Project director Ray D. Johnston from Russell T. Robinson, chief of WRA's Evacuee Property office in San Francisco.

The serious manpower shortage in agriculture and a sharp curtailment in the manufacture of new farm machinery make it imperative that all used farm equipment be made available for this year's food production, Johnston was advised.

Evacuees having farm equipment or automobiles in storage and who desire to dispose of them are requested to write to the Evacuee Property Office, War Relocation Authority, Whitcomb Hotel Bldg., San Francisco, Calif. It is particularly important that the letter state the exact location of the equipment, the make, model, age and condition.

Stopped cold for three periods, the Flames surged up in the dying moments of the battle with a fancy, passing attack, completely manned by Hayashi's tossing and lanky Kagawa's receiving.

The drive saw three straight passes completed. The final throw was good for ten yards to the five from where Will Kagawa short-lateralled to Joe Kurata, who scooted over for the lone score.

With all-star Shiro Morimoto and Shig Shiroishi leading the damage, the husky Weightlifters showed midfield power in the first half, but bogged down in scoring territory.

EDITORIAL MARCH OF DIMES

The march of time brings to us again this year the March of Dimes, a fund collected and utilized for the care and hospitalization of infantile paralysis victims.

In the past nine drives, we have contributed four dimes toward this fund without feeling the effect of the contributions, but this year it is different.

We no longer have a lucrative source of income and our finances are limited to the residents of the Center; the little silver pellets which would help many youngsters to get back on their feet are a precious part of their resources.

A group of interested men are planning to start a drive to aid the Franklin D. Roosevelt national campaign, which has set as its goal a sum exceeding last year's donations of \$3,908,310.

It is hoped that the community drive will bring many responses though it can hardly be expected that the total will reach a prodigious figure. Our ten cents in the monetary sense will not be any more valuable than those given by fellow Americans, but the spirit and sacrifice behind our gifts will carry with it a far greater meaning than ever before.

Letter to the Editor

Dear Editor:

We wish to express our appreciation for the many kindnesses extended to Ky Miyamoto while visiting in Rohwer.

Ky wrote telling us of the fine and warm welcome which he received.

We thank you again for your hospitality, and may we have the opportunity soon of extending the same welcome when some Rohwer residents visit us.

Very sincerely yours,
